Broderbund Software™

Bank Street Writer, Word Processing, and You

Bank Street Writer is the best-selling word processor for the home. This highly acclaimed program is simple enough to be used by children, yet sophisticated enough to meet most adult writing needs. Its simple commands and educator-designed format make it:

Easy to Use

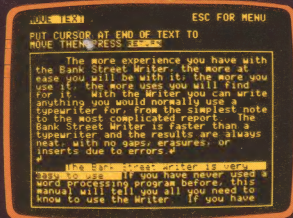

Bank Street Writer lets you concentrate on your writing, not on trying to remember special codes, keys, or symbols. With the Bank Street Writer, you can write, revise, correct, erase, unerase, and rearrange your words, sentences, and paragraphs almost instantly.

Easy to Learn

Bank Street Writer is its own tutor, teaching you word processing right on your computer screen. It's so simple that both children and adults can learn to use the Writer in a matter of minutes.

Easily the Best Value

Bank Street Writer is packed with powerful features you would expect to find only in a far more expensive word processing program. It has all the capabilities you need to produce letters, stories, poems, reports, articles, memos, and more. A free backup disk, on-disk tutorial, and comprehensive reference manual are included.

Bank Street Writer.

Created by educators. Tested by children. Proven by adults.

Bank Street Writer was developed by Intentional Educations, Inc., Franklin E. Smith, and Bank Street College of Education.

This program is fully guaranteed. If it ever fails to function, return the original product to Brøderbund Software for a free replacement. If the product has been physically damaged, please include \$5 for disk, \$10 for cartridge.
